Certification Level & Duration	Examination only	Exam and Continuing Education Options	Continuing Education only
Architect – 5 years	Cisco Certified Architect (CCAr) certifications are valid for five years. CCAr will remain certified as long as they continue to contribute to maintaining the Cisco Certified Architect Certification program. Current recertification policies require Cisco Certified Architects to complete qualifying events within the 24 months preceding the expiration deadline. Qualifying events include: • Contribution to the development lifecycle • Significant participation in the creation of new exam content or • Significant review/refinement of existing content or • Involvement in future direction of the program • Participation as a judge in a candidate evaluation • Application review/interview for TWO (2) candidates (in the case where the candidate's application IS NOT approved to progress to the board review) or • Application review/interview and in-person board review for ONE (1) candidate (in the case where the candidate's application IS approved to progress to the board review)	N/A	N/A
